Dear Hooker Construction Team,

Words cannot adequately express enough thanks for the amazing work you have done in the completion of our new facility on historic Main Street. The entire design build process went better than expected. We were particularly impressed with the creative ideas you suggested throughout while still bringing us in under budget. I have had other business owners on Main Street guess that we spent two to three times more on the project than we actually did.

You have truly blessed us and set this church in a facility where we can grow with money left to grow on!

Sincerely,

Douglas Hon
Pastor
Main Street Church
